

# Scaled Agile Training Series

COURSE OFFERING

**Jason Cameron**

Principal Consultant

# Thinking about scaling agile in your organisation?

“ We’ve been happy in the agile delivery space but we’re unsure where we should focus our effort to gain the next level of efficiency?

- CIOs, Directors and Program Managers

“ We’re an agile delivery team and we’re looking for help to scale our approach.

- Product Owners, Scrum Masters, Project Managers, BAs, DevOps Teams

“ How do I get scaled agile off the ground? Who can help us?

- C-Suite / Executives

# Why use Escient for your scaled agile training?

Training is a critical step to the success of any transformation. Escient provides a suite of training to support every level of your transformation from leaders to team members.

We take a **servant leadership approach** to agile implementation and know the difference between the agile principles and application of best practices.

We believe **people** are key to successful partnerships and have a team of over **12 practitioners** experienced in agile delivery.

We understand that **seamless integration** with existing teams is an important step in **managing change** for staff.

Our values of **selfless, courageous and creative** hold a mirror up to the agile way of working and underpinning mindset, to promote team and enterprise agility.

We're local. **We understand the local context** and offer ongoing support, helping foster a coaching alliance with you and your organisation.

Our training is backed by a **qualified team of agile leaders** ensuring continuity to your delivery.

# Our courses

## LEADING SAFe®

Learn how to build and support Agile teams and programs, empower a Lean Portfolio and coordinate large solutions.

## SAFe® SCRUM MASTER

Explore the role of the Scrum Master in the context of the entire enterprise to prepare for SAFe® 4 Scrum Master certification.

## SAFe® PRODUCT OWNER / PRODUCT MANAGER

Develop the skills to guide the delivery of value in a Lean enterprise to prepare for SAFe® 4 Product Owner / Product Manager.

# Leading SAFe

## Course overview

Learn how to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework (SAFe) and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps.

Discover the five competencies needed to become a Lean Enterprise, learn and practice the skills for supporting and executing PI Planning events and coordinating multiple Agile Release Trains (ARTs).

Gain an understanding of the Lean-Agile mindset, why it's so effective in today's adapt-or-die marketplace, and what it means to lead a Lean-Agile transformation. Learn how to build and support Agile teams and programs, empower a Lean Portfolio, build a Continuous Delivery Pipeline and DevOps culture, and coordinate large solutions.

## Fees and details

-  \$1,400 per person inc. GST
-  5-6 March 2020
-  115 King William Street, Adelaide

## This course is for

- Executives and leaders
- Managers, directors and CIOs
- Portfolio, program and project managers
- Product owners and managers
- Enterprise architects

# Leading SAFe

## What you will learn

- Introducing the Scaled Agile Framework (SAFe)
- Becoming a Lean-Agile Leader
- Establishing Team and Technical Agility
- Experiencing Program Increment (PI) Planning
- Releasing on Demand with DevOps
- Building Business Solutions and Lean Systems
- Implementing Lean Portfolio Management
- Leading the transformation

Attending this course will prepare you to take the SAFe 4 Agilist exam (included) to become a certified SAFe 4 Agilist.

## What you get with registration

- ✓ 2-day course with lunch provided
- ✓ SAFe Agilist exam
- ✓ 1 year membership (upon successful completion of the SAFe Agilist exam) giving you access to the SAFe community and resources
- ✓ **...plus** access to Escient's SAFe practitioners to provide you with ongoing support.

# SAFe Scrum Master

## Course overview

Unlike traditional Scrum Master training that focuses on the fundamentals of team-level Scrum, the SAFe Scrum Master course explores the role of the Scrum Master in the context of the entire enterprise, and prepares you to successfully plan and execute the Program Increment (PI), the primary enabler of alignment throughout all levels of a SAFe organisation.

The course includes learning the key components of Agile at scale development, how Scrum is facilitated throughout the enterprise, and how to execute Iteration Planning.

You'll also discover how to build high performing Agile teams by becoming a servant leader and coach, and how to coach those teams to deliver the maximum business value at scale.

## Fees and details

- 💰 \$1,400 per person inc. GST
- 📅 6-7 February 2020
- 📍 115 King William Street, Adelaide

## This course is for

- Scrum masters
- Business analysts
- Project managers
- Solution architects
- Developers
- DevOps team leads

# SAFe Scrum Master

## What you will learn

- Introducing Scrum in SAFe
- Characterising the role of the Scrum Master
- Experiencing Program Increment planning
- Facilitating Iteration execution
- Finishing the Program Increment
- Coaching the Agile team

Attending this course will prepare you to take the SAFe 4 Scrum Master exam (included) to become a certified SAFe 4 Scrum Master (SSM).

## What you get with registration

- ✓ 2-day course with lunch provided
- ✓ SAFe Scrum Master exam
- ✓ 12 month SAFe membership giving you access to the SAFe community and resources
- ✓ **...plus** access to Escient's SAFe practitioners to provide you with ongoing support.

# SAFe Product Owners / Managers

## Course overview

Gain an in-depth understanding of the Agile Release Train (ART), how it delivers value, and what you can do to effectively perform your role.

Develop the skillsets needed to guide the delivery of value in a Lean enterprise and learn about the activities, tools, and mechanics used to manage backlogs and programs by becoming a SAFe 4 Product Owner/Product Manager (POPM).

Learn how to apply Lean thinking to write Epics, break them down into Features and Stories, plan and execute Iterations, and plan Program Increments. Finally, you'll learn about the Continuous Delivery Pipeline and DevOps culture, how to effectively integrate as Product Owners and Product Managers, and what it takes to improve the ART.

## Fees and details

 \$1,400 per person inc. GST

 2-3 April 2020

 115 King William Street, Adelaide

## This course is for

- Scrum masters
- Business analysts
